

L J INSTITUTE OF COMPUTER APPLICATIONS
Master of Computer Applications (MCA)
Syllabus for Batch - 2024
Semester: III

Category	Project			
Course Title	Software Project -1			
Scheme and Credits	Theory	Tutorial	Lab	Credits
	3	0	6	6
Pre-requisites (if any)	Basic knowledge of Software Engineering, RDBMS and coding language.			

Course Objectives (COs)

CO1	Understand the importance of problem definition in the development process and its role in shaping project scope and objectives.
CO2	Define clear and measurable objectives for the new system that align with organizational goals and stakeholder requirements.
CO3	Identify and analyze the core components of a system, including hardware, software, data, and processes, to comprehend their interdependencies and functionality.
CO4	Develop project profiles encompassing project scope, objectives, resources, constraints, and timelines to effectively plan and manage system development.
CO5	Evaluate the advantages and limitations of proposed systems to make informed decisions regarding system design, implementation, and future enhancements.

CO-PO MATRIX

L J INSTITUTE OF COMPUTER APPLICATIONS
Master of Computer Applications (MCA)
Syllabus for Batch - 2024
Semester: III

On completion of the course, the student will be able to:		PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8
CO1	Understand the importance of problem definition in the development process and its role in shaping project scope and objectives.	2	3	2	1	1	2	2	2
CO2	Define clear and measurable objectives for the new system that align with organizational goals and stakeholder requirements.	2	2	3	1	2	3	1	2
CO3	Identify and analyze the core components of a system, including hardware, software, data, and processes, to comprehend their interdependencies and functionality.	3	3	2	2	2	1	1	2
CO4	Develop project profiles encompassing project scope, objectives, resources, constraints, and timelines to effectively plan and manage system development.	2	2	3	2	2	3	1	2
CO5	Evaluate the advantages and limitations of proposed systems to make informed decisions regarding system design, implementation, and future enhancements.	2	3	3	2	1	2	2	3

L J INSTITUTE OF COMPUTER APPLICATIONS
Master of Computer Applications (MCA)
Syllabus for Batch - 2024
Semester: III

Syllabus

1. Guidelines regarding project:

- Students should work in group. Maximum number of students in one group can be 3.
- Feasibility check should be done by the faculty after allotment of the project groups.
- Students will be working under supervision of one faculty.
- Students will submit a hard copy of the project after the completion of the project.
- The reports should be spiral bound along with the soft copy of the project.
- The dimension of the project report should be in A4 size.
- It is advisable that object-oriented methodology is used.
- The output reports must include MIS reports, if applicable.

2. Index:

- 1) Problem Definition
- 2) Objective of the New System
- 3) Core Components
- 4) Project Profile
- 5) Advantages and Limitations of the Proposed System
- 6) Proposed Time Line Chart
- 7) Requirement Determination
- 8) Requirement Specification
- 9) Problem Definition
- 10) Objective of the New System
- 11) Core Components
- 12) Project Profile
- 13) Advantages and Limitations of the Proposed System
- 14) Proposed Time Line Chart
- 15) Requirement Determination
- 16) Requirement Specification
- 17) Use Case Diagram
- 18) Class Diagram
- 19) Interaction Diagram
- 20) Activity Diagram
- 21) Data Dictionary
- 22) User Interface Design

L J INSTITUTE OF COMPUTER APPLICATIONS
Master of Computer Applications (MCA)
Syllabus for Batch - 2024
Semester: III

- 23) Report Design
- 24) Coding Standards
- 25) Test Cases
- 26) Proposed Enhancements
- 27) Conclusion
- 28) Bibliography

3. Project Report:

The contents of the project report should contain the following data:

Front Page must include:

- 1) Group Number
- 2) Name of the college
- 3) Course name and Semester
- 4) Enrolment Number, Roll Number, Division and Name of all the students in the group.
- 5) Project Title
- 6) Name of the Internal guide

Second Page:

Certificate – One per each student.

Third Page:

Table of contents. (Index with page numbers)

Fourth Page:

Detailed contents from the index.
